INTERNATIONAL FISHERIES EXHIBITION  
TO BE HELD AT ST. PETERSBURG  
IN 1902.

IMPERIAL CONSULATE OF RUSSIA IN CANADA,

Montreal, 17th September, 1901.

His Honour The Lieutenant-Governor:

SIR,—I have the honour to inform Your Excellency that the Russian Imperial Society of Pisciculture and Fisheries has been authorised by His Majesty the Emperor, my August Master, to organise at St. Petersburg in the months of February and March, 1902, an International Exhibition of Fisheries, during which time an International Congress of Fisheries will be held in the same town.

The Exhibition, as well as the Congress, are under the high patronage of His Imperial Highness the Grand Duke Serge of Russia.

I have already had occasion, a few days ago, to transmit to the Federal Government the invitation of the organising committee of said Exhibition to participate in said Exhibition, and to send a special delegate to the Congress above mentioned.

Nevertheless, it would be, in my opinion, in the interest of the enterprise to make known to the clubs interested of the Province of British Columbia the

desire of the organising committee to see represented there all countries, as well as all branches of the industry in question.

With these conditions I would be very grateful if Your Excellency would think it opportune to take the necessary steps to make known to the interested clubs of the Province under your administration the facts which I have now presented to Your Excellency.

I pray you, Mr. the Lieutenant-Governor, to accept the assurance of my very high and perfect consideration.

N. DE STRUVE,  
Counsellor of State,  
Consul Imperial of Russia.

To His Excellency  
Sir Henri Joly de Lotbiniere, &c., &c., &c.,  
at Victoria.

IMPERIAL CONSULATE OF RUSSIA IN CANADA.

Montreal, the 21st September, 1901.

His Honour the Lieutenant-Governor:

Referring to my letter, dated 17th instant, relative to the International Exhibition of Fisheries, I have the honour to transmit herewith to Your Excellency a copy of the declaration to take part in said Exhibition, as well as a copy of a pamphlet containing the general regulations referring to said Exhibition.

I pray Your Excellency will be pleased to accept the assurance of my very high and perfect consideration.

N. DE STRUVE,  
Imperial Consul.

To His Excellency  
Sir Henry Joly de Lotbiniere, &c., &c., &c.,  
at Victoria, B.C.

With regard to the invitation conveyed in the letter of the Imperial Russian Consul, Mr. de Struve, under date of the 29th of October, intimates that the time for the presentation of applications for space, required by section 2 of the Regulations, has been extended until the 15th of December and even, if it be necessary, until the opening of the said Exhibition, which has been definitely fixed for the 26th of January, 1902.

Applications should be presented in duplicate and addressed in the name of the Executive Committee of the International Exhibition of Fisheries at St. Petersburg, 1902 (13, Bolshaya Konushennaya, St. Petersburg, Russia).

Intending exhibitors are notified that a copy of the Rules and Regulations of the International Exhibition of Fisheries, and of the International Fisheries Congress, can be seen, and copies of the form of invoice and of the printed labels to be affixed to the packages containing the exhibits can be obtained at this office.

In the BRITISH COLUMBIA GAZETTE, and in one newspaper published in the District affected, or if there be no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition, and copies of such notice shall be sent by the parties inserting such notice to the Clerk of the House to be filed amongst the records of the Committee on Standing Orders.

57. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no Motion for the suspension or modification of this Rule shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committees charged with consideration of Private Bills, who shall report thereon to the House. And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, together with the notices published. At the time of depositing the Bill, the applicant shall also pay to the Clerk of the House a sum of three hundred dollars. If a copy of the Bill, Petition and notices shall not have been so deposited in the hands of the Clerk of the House at least eight days before the opening of the Session, and if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees paid shall be returned.

60. Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the person or persons intending

to petition for such Bill shall, upon giving the notice prescribed by rule 59, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a draw-bridge or not, and the dimensions of the same.

61. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills:—Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be re-cast by the promoters and re-printed at their expense before any Committee passes upon the clauses.

65. All Private Bills shall be prepared by the parties applying for the same, and printed in Small Pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring 10½ inches by 7½ inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to run on through the Bill, but the lines of each page are to be numbered separately. Two hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

By new Rule 65A, passed on the 2nd April, 1901 (see Journals, 1901, page 58), a model form of Railway Bill is adopted.

By 65B all Bills to incorporate or amend Bills incorporating railway companies are to be drawn in accordance with the Model Bill.

The provisions contained in any Bill which are not in accord with the Model Bill shall be inserted between brackets.

And whereas it has been shewn and proved that the said site is unsuitable for a market site, and the building erected thereon has, in fact, since the year 1897, been used by the City of Vancouver for City Offices, and the site has been practically abandoned as a market site:

And whereas the Council of the said City are about to erect a Free Public Library in the City:

And whereas, on the third day of August, 1901, a vote of the electors of the City entitled to vote for Mayor was taken on the question whether the said Free Library so proposed to be erected should be erected on the corner of Hamilton and Pender Streets or on a portion of the site hereinbefore described as having been purchased as a market site, situate at the corner of Hastings Street and Westminster Avenue, and the said electors decided, by a large majority, that the said Library should be erected on a portion of the site, hereinbefore described, purchased as a market site:

And whereas it is considered to be in the interests of the City that Lots 1, 2 and 3, Block 12, part of the said lands purchased as a market site, should be appropriated for a Free Library site in lieu of a market site:

And whereas the consent of the Lieutenant-Governor in Council has been obtained, allowing the hereinbefore recited by-law to be amended so that the said Lots 1, 2 and 3 of the said market site can be used and appropriated by the City of Vancouver for a Free Library site:

Be it therefore enacted by the Mayor and Council of the City of Vancouver, by and with the consent of His Honour the Lieutenant-Governor in Council:—

1. That By-Law No. 70, known as the "Market By-Law," is hereby amended by adding thereto a clause, to be known as clause 6A:—

"Notwithstanding anything in this by-law contained, Lots 1, 2 and 3 of Block 12, Subdivision 196, being a part of the lands hereinbefore described to be purchased for a market site, shall be appropriated and used as a Free Public Library site, and for the erection of a Free Public Library thereon, in lieu of a market."

Done and passed in open Council this 11th day of November, 1901.

## PROVINCIAL BOARD OF HEALTH, BRITISH COLUMBIA.

### SUPPLEMENTARY REGULATIONS RE SMALL-POX.

Approved by His Honour the Lieutenant-Governor in Council, dated  
November 14th, 1901.

*To Medical Health Officers and others in charge of the Management of Outbreaks of Small-pox :*

Upon discovery of the existence of small-pox, or of persons who have been exposed to small-pox, act quickly. Investigate at once all rumours or reports of infection.

The *powers* given by the "Health Act" are ample in almost any contingency.

The duty of the Local Board is to act promptly. No time should be wasted in an endeavour to obtain the consent or approval of the Municipal Officers, or of anyone else. Your Municipality, or whoever may be responsible, will be obliged to pay all reasonable charges, and the more promptly you act the smaller the bills will be.

If any person breaks quarantine, violates the provisions of the health laws, or interferes with the work of the duly appointed officers, have him arrested at once. If infectious, he should be held until he can be disinfected and brought before a magistrate.

#### SUSPECTS, OR EXPOSED PERSONS.

Trace out, as speedily as possible, every person who has been exposed to the infection of small-pox. Make a note of the date of exposure. When located, vaccinate every such person as soon as possible. Vaccinate, also, all the members of his family, and of the household in which he lives.

As to the question of quarantining a person who has been exposed to small-pox :

If he is a transient, and has not a certificate of recent successful vaccination, keep him under close quarantine.

If, on the other hand, he is a permanent resident and trustworthy, and has not had an intimate association with an infected case, vaccinate him, disinfect his person and clothing and keep him under observation.

If, again, any transient can prove to the medical man in charge that he has been successfully vaccinated within the past two years, and can show that such vaccination was successfully effected in not less than three points (three scars), such person, if considered trustworthy, may be disinfected and allowed to proceed, on condition—

- (1.) That he states where he is to reside during the next sixteen days ;
- (2.) That he undertakes to consult a doctor, and gives his full history of exposure to small-pox, on the very first indication of illness.

Persons who have been exposed to small-pox should be considered under two classes :—

- (1.) Those who have been exposed but once to the infection, and are immediately vaccinated. These should be kept under observation until there are unmistakable evidences of the success of the vaccination, when they can be discharged from further surveillance :
- (2.) Persons who have been exposed to small-pox, and several days (over four) have elapsed before vaccination. These should be kept under observation for sixteen days from their last possible exposure. The wearing of their own possibly-infected clothing should be deemed a continuation of exposure.

#### VACCINATION.

In the vaccination of persons who have been exposed to small-pox "time is money." The failure to effect prompt vaccination sometimes costs individuals and municipalities much money.

Prompt vaccination is required for the exposed person, so that the vaccination may get ahead of the small-pox and modify it or prevent it entirely, and for the persons housed or associated with him the aim should be the speediest possible "takes," so that these persons may be fully protected if the person already exposed develops small-pox.

If, after reasoning with them, suspects refuse to be vaccinated, apply an absolute quarantine just as long as may be necessary.

#### QUARANTINE.

*The Quarantine.*—The quarantine of every small-pox patient should be prompt and absolute. A guard should be placed over every infected house day and night, and special visits should be made at unexpected hours to see whether the guards are doing their duty.

*Nurses.*—When it is known that persons have been exposed to small-pox, officers should promptly arrange for the worst. Facilities for quarantine and treatment should be considered. Nurses and medical attendants should be arranged for, and, if possible, conditionally engaged. For nurses, have persons who have had small-pox, or who are thoroughly protected by recent successful vaccination (three or four scars).

#### HOSPITALS AND CAMPS.

When small-pox breaks out the question will often arise whether the sick shall be kept and cared for in their own houses or removed to other quarters. When at all practicable to do so their removal should be ordered, and the house from which they are taken should be disinfected without delay.

When a house is not available as a hospital, a temporary camp or shed may quickly be built. During the summer months a tent, or a number of tents, will answer the purpose.

Persons who have been exposed to small-pox, and persons who show uncertain symptoms, should not be confined with small-pox patients.

*Disinfection.*—The disinfection of infected houses or rooms should be left to experts, or else done under the direct supervision of a doctor.

Formaldehyde is the surest and least objectionable disinfectant. Compared with sulphur it is a more efficient germicide, it is not poisonous, it does not escape from rooms so rapidly, it does not injure articles of furniture, &c., and it has greater power of penetration. The more tightly the rooms are made to prevent the escape of the gas, the more penetrating will be the power of the formaldehyde. (For further information on disinfection, see circular).

#### BRIEF POINTS FOR NON-MEDICAL MEMBERS OF LOCAL BOARDS.

The period of incubation of small-pox, namely, time from entry of disease into the system to the first symptom, is twelve to fourteen days. It may be longer or shorter. In from about 48 to 60 hours more the eruption begins to show as small red specks and then as pimples or papules, at first on the forehead and wrists, gradually extending over the body so that the eruption becomes general in about 24 hours. From the second to the fifth days of disease (counting from the first symptoms) the eruption is papular and the characteristic "shotty" sensation is obtained by passing the fingers over the skin. During the next 24 hours the papules become vesicles. Vesicles are watery blisters containing clear fluid on their summits. The next change is that the vesicles become pustules by becoming yellow, they now contain pus or "matter." The pustules often present a slight depression in the centre, that is, they are "umbilicated." The fever having declined when this eruption first appeared, now rises again. Severe pain in the small of the back is somewhat characteristic of small-pox.

In modified small-pox, or in mild epidemics, the eruption aborts at various stages or passes rapidly to the pustular stage and very mild constitutional symptoms are present.

Small-pox is intensely infectious at all periods of the disease, but less so at the early stages than when the scabs are peeling.

The United States Marine Hospital Service have issued the following maxims which you would do well to bear in mind:—

"Small-pox cannot be suppressed without the expenditure of money."

"The more promptly you act the less it will cost."

"When in doubt act on the safe side."

And, finally, isolate, vaccinate, disinfect.

Secretary.

## RE TUBERCULOSIS.

Regulations of the Provincial Board of Health, approved by His Honour the Lieutenant-Governor in Council, dated November 14th, 1901.

Whereas tuberculosis is now proved to be infectious, and is at the present time existing in many parts of the Province, the Provincial Board of Health enacts the following regulations:—

## NOTIFICATION.

1. Whenever any physician knows or suspects that any person whom he is called upon to visit is infected with or has died of tuberculosis, he shall immediately notify the Medical Health Officer, and give an account of the condition of patient and state what precautions are being taken to prevent infection.

2. Whenever any householder knows or suspects that any person within his family or household has tuberculosis, he shall immediately give notice to the Medical Health Officer.

3. Whenever any teacher in any school has reason to suspect that any pupil is suffering from tuberculosis, he shall notify the Medical Health Officer immediately, and may prevent the attendance of such pupil until medical evidence is produced that such pupil is not suffering from tuberculosis, or any form likely to be infectious.

4. Whenever any Superintendent, or person in charge of any hospital—public or private—asylum, gaol, orphanage, “home,” convent, or private school, knows or suspects that any inmate of such hospital, asylum, gaol, orphanage, “home,” convent, or private school, is suffering from tuberculosis in any form, he shall immediately notify the Medical Health Officer.

5. In Municipalities or Districts where no Medical Health Officer has been appointed, notification should be sent to the Secretary of the Provincial Board of Health.

## MEDICAL HEALTH OFFICER.

6. “Medical Health Officer” shall mean and include the Medical Health Officer appointed under the provisions of the “Health Act,” to act within the limits of the jurisdiction of any Local Board or Health District.

7. The Medical Health Officer shall, within forty-eight hours, give notice in writing to the Secretary of the Provincial Board of Health of every case of tuberculosis reported to him, and shall state as nearly as possible the condition of patient, and what precautions are being taken to prevent infection.

8. In case the Medical Health Officer is not satisfied with the report of the physician in charge, he may demand a fuller report, and in the event of his still being dissatisfied he shall visit the patient and satisfy himself that all necessary precautions are being carried out.

9. In case where the Medical Health Officer and attending physician disagree as to precautionary measures, the matter shall be referred to the Provincial Board of Health for final settlement.

10. Whenever a case is reported as not being under the charge of a physician the Medical Health Officer shall forthwith visit such case and instruct the patient as to necessary precautions against general and self infection.

11. Whenever the Medical Health Officer or the physician in charge considers that a house or any part of a house is infected with tuberculosis, he shall order said house or part of house to be disinfected, in accordance with instructions issued by the Provincial Board of Health.

12. In all cases of death from tuberculosis the rooms or house occupied by deceased shall be disinfected to the satisfaction of the Medical Health Officer, or the Secretary of the Provincial Board of Health or his deputy.

13. Whenever a case of tuberculosis is reported from a hotel or boarding-house, the Medical Health Officer shall visit the patient while residing in said hotel or boarding-house once a week, or as often as the Secretary of the Provincial Board of Health may direct.

## SPITTING IN PUBLIC.

14. Inasmuch as spitting is purely a matter of habit, and is offensive to many, and is often very harmful and a fruitful means of carrying disease, it is hereby declared unlawful to spit in tram-cars, railway cars, or other public conveyances, or on sidewalks, or on floors and other parts of public buildings.

## TUBERCULOUS MILK.

15. Inasmuch as tuberculous milk is a most fruitful source of consumption, it is hereby declared unlawful for any person to sell milk unless he has a certificate, of a date not later than six months, from the Provincial Veterinary Surgeon that the cows from which such milk

comes are free from tuberculosis. Such certificate may be demanded by any customer, or Medical Health Officer, Sanitary Inspector, Secretary of the Provincial Board of Health or his deputy.

#### DISINFECTION.

16. Whenever it appears necessary or advisable to the Medical Health Officer to have any house, hotel, boarding-house, hall, theatre, car, railway car or other public conveyances disinfected, he may order same to be done and at the expense of the owners.

#### PENALTIES.

17. Any person who violates any provision of these regulations shall be liable, upon summary conviction before any Police or Stipendiary Magistrate, or before any two Justices of the Peace, for every such offence, to a fine not exceeding one hundred dollars, with or without costs, or to imprisonment, with or without hard labour, for a term not exceeding six months, or to both fine and imprisonment in the discretion of the convicting Court.
